706-569-3127 (Fax)	June 22, 2006	1300-1700

All Intoxilyzer 5000 Refresher classes are held on Thursday, unless otherwise indicated. For Refresher classes at GPSTC, please register by e-mail at intox@gsp.net. Please include the officer(s) name, social security number, Intoxilyzer permit number and expiration date. E-mail registration is the preferred method for Refresher classes at GPSTC, and this is the only registration that will receive confirmation.

To register for Intoxilyzer 5000 Refresher classes held at the Regional Law Enforcement Academies, please contact the respective academy directly. The phone numbers are included above for your convenience.

The suggested time frame for attending a Refresher class is within six months of the expiration date listed on the Operator's Permit. An Operator may also attend an Intoxilyzer 5000 Refresher class within six months after their permit has expired. If a permit has been expired for more than six months, the officer will have to attend the 16 hour Basic Intoxilyzer 5000 class. (Exception: Operators returning from active military duty are exempt from the six months expiration rule. These operators should attend a Refresher course as soon as possible after returning to law enforcement duty.)

For information on registering officers for the 16 hour Basic Intoxilyzer Operator's Course at GPSTC, contact the GBI at 404-270-8142.

Please do not fax or send Intoxilyzer Basic or Refresher registration forms to the Registration Office at the GPSTC. They are not involved in the registration process for these classes.

If you have any questions, please contact Cpl. Darrell Dunn at 478-993-4226.
